

WHY DO WE NEED NATIONAL VOTING? BECAUSE THE ONLY WAY TO FIX THIS COUNTRY IS TO DO IT OURSELVES

What Is National Voting and How Would It Work?

National voting is do-it-yourself democracy. Instead of waiting around for politicians to solve the problems our country faces, we'll take matters into our own hands. Every American citizen 18 and over will vote directly on all the major issues: abortion, Iraq, immigration, taxes, guns, affirmative action, same-sex marriage—everything. The results will become law for 10 years and cannot be overturned by anyone, including the president and the Supreme Court. National voting means everyone's vote will count. It will eliminate lobbyists and special interests. And it will resolve the big issues once and for all.

What People Are Saying about National Voting and *One Person, One Vote*?

"The book is a crash course on direct democracy, useful for anyone from students and educators to seasoned activists alike. It's a great resource for anyone who sees flaws in our current voting systems. These systems can change—and Wilkerson demonstrates how."

—Kat Nania, Editor, *Third Coast Press*

WHAT CAN I DO TO MAKE IT HAPPEN?

- 1 Write to the president, your senators and your congressional representative and insist that your voice be heard.
- 2 Demand a constitutional amendment guaranteeing the right of all U.S. citizens to vote nationally on all the issues—with a guarantee that our votes will be protected.
- 3 Visit www.OnePersonOneVoteOnline.com/demand to find out who your elected leaders are and print a letter that you can personally send to these politicians!

WHERE CAN I FIND OUT MORE?

Are you ready to shut up all the squabbling in Washington and put the power back where it belongs—with the people? W. R. Wilkerson III explains how in *One Person, One Vote: How Changing Our Voting System Will Get Us Out of the Mess We're In*.
